

ALPACA CATALOGUE

At Galifrey, we have a range of alpacas for sale—stud males, breeding females, tuis (weaned crias, not yet maidens or wethered), wethers for pets or sheep guards (some with experience) and many different colours to choose from. Whilst our alpacas have varying degrees of fleece fineness, we have a considerable number of animals with less than 20 micron fleece, and our herd average is around 23 microns, with very few alpacas exceeding 26 microns.

Our catalogue is sorted by breeding status (stud males, breeding females and wethers) and has information about each animal and a photo to assist in selection. Prices indicated are for the animal only and include gst. Transportation costs are not included.

Enquiries and inspections
welcome by appointment.
